ACCP CWI/SCWI Certification Program - ASNT
Because most test methods require that the operator look at the surface of the part being inspected, visual inspection is inherent in most of the other test methods. As the name implies, VT involves the visual observation of the surface of a test object to evaluate the presence of surface discontinuities.

Nondestructive Testing, 2015 Edition, is a recommended practice developed by the American Society for Nondestructive Testing (ASNT) and updated annually, that provides guidelines for employers establishing an in-house certification program for nondestructive examination. SNT TC-1A has been widely used by employers as a framework for in-house NDT certification programs since 1966 and is reviewed every five years.
