The Canzoniere can also be connected to humanism, the major intellectual movement of the Italian Renaissance. Inspired by the writings of classical Greek and Roman philosophers, the humanists devoted themselves to the study of ancient literature, history, politics, moral philosophy, and science. Their primary interest was humankind and all aspects of human existence. In the Canzoniere ...

Petrarch's Canzoniere is an innovative collection of poems predominantly celebrating his idealised love for Laura, perhaps a literary invention rather than a real person, whom Petrarch allegedly first saw, in 1327, in the Church of Sainte Claire in Avignon. Mostly using the sonnet form the poems were written in the Italian vernacular rather than Latin, and Petrarch, like Dante, exploited and ...

"Canzoniere" is a book of poems composed out of two parts. Thanks to this work Petrarca, whose name was anglicized as Petrarch, became famous. The whole book of poems is inspired by his great love for Laura. This work served as a patter for other generations of writers. This book doesn't offer a simple and a classical love story. The writer didn't keep a journal in verses of the ...

The 'Canzoniere', a sequence of sonnets and other verse forms, were written over a period of about 40 years. They describe Petrarch's intense love for Laura, whom he first met in Avignon in 1327, and her effect on him after she died in 1348. The collection is an examination of the poet's growing spiritual crisis, and also explores important contemporary issues such as the role of the papacy and religion.

This entirely new translation includes Petrarch's short autobiographical prose works, The Letter to Posterity and The Ascent of Mount Ventoux, and a selection of twenty-seven poems from the Canzoniere, Petrarch's best-known work in Italian.

"A new verse translation of the whole 'Canzoniere, ' with notes on the page to illuminate the poems and suggest the many connections between them."--Page 4 of cover.

Examination of the chronology of the poems of Part 1 of Petrarch's Canzoniereconsidered with reference to the Catastrophe Theory.

Seven centuries after the birth of Petrarch (1304-74) the nature and extent of his influence loom ever larger in the study of renaissance literature. In this revised and expanded edition of Petrarch's Canzoniere in the English Renaissance Anthony Mortimer presents a unique anthology of 136 English poems together with the specific Italian texts that they translate, adapt or exploit. The result, with its revealing juxtapositions of major and minor figures, makes fascinating reading for anyone who wants to get beyond broad generalizations about Petrarchism and see exactly what English poets made of Petrarch's celebrated sequence.Reviewing the first edition, Professor Brian Vickers wrote: An ideal text-book for university courses in English or Comparative Literature. The critical introduction is a fresh, independent and accurate survey of the role of Petrarchism in the English Renaissance ... our literary history is being rewritten, more accurately.

Francesco Petrarca (1304-74) has been described as the 'first modern man of letters' and his influence on the European lyric tradition has been widespread. The poems of his Canzoniere, closely associated as they are with the enigmatic figure of Laura, were soon to become the models for love-poetry in nearly all major European literatures in the Renaissance. The new translations here use the same rhyme schemes and broadly the same metres as those used by Petrarch himself. The facing English texts are thus not intended to be absolutely literal, but to reflect the inner meanings and moods of the originals, with some further literal translations of difficult passages added in the notes. The notes to the poems also cover their likely dates, mythological allusions, certain background settings, and a number of other calendrical and structural features which appear to emerge from the actual sequencing of the collection itself. There is also a section on old Italian syntax, and other linguistic aids. The new translation of Petrarch's Rerum Vulgarium Fragmenta is in two separate volumes.

One of the most important authors of the Middle Ages, Petrarch occupies a complex position: historically, he is a medieval author, but, philosophically, he heralds humanism and the Renaissance. Teachers of Petrarch's Canzoniere and his formative influence on the canon of Western European poetry face particular challenges. Petrarch's poetic style brings together the classical tradition, Christianity, an exalted sense of poetic vocation, and an obsessive love for Laura during her life and after her death in ways that can seem at once very strange and—because of his style's immense influence—very familiar to students. This volume aims to meet the varied needs of instructors, whether they teach Petrarch in Italian or in translation, in surveys or in specialized courses, by providing a wealth of pedagogical approaches to Petrarch and his legacy. Part 1, "Materials," reviews the extensive bibliography on Petrarch and Petrarchism, covering editions and translations of the Canzoniere secondary works, and music and other audiovisual and electronic resources. Part 2, "Approaches," opens with essays on teaching the Canzoniere and continues with essays on teaching the Petrarchan tradition. Some contributors use the design and structure of the Canzoniere as entryways into the work; others approach it through discussion of Petrarch's literary influences and subject matter or through the context of medieval Christianity and culture. The essays on Petrarchism map the poet's influence on the Italian lyric tradition as well as on other national literatures, including Spanish, French, English, and Russian.
