Each volume of this series contains all the important Decisions and Orders issued by the National Labor Relations Board during a specified time period. The entries for each case list the decision, order, statement of the case, findings of fact, conclusions of law, and remedy.

Regardless of the job market situation, there is always a certain level of voluntary employee withdrawal - lateness, absence, avoidance of work, undue socializing - that affects the well being of the organization. This volume explores the various manifestations of employee withdrawal, how they may be assessed, and identifies relevant antecedents and moderators, attitudinal as well as behavioral. The authors have focused on issues such as national culture and perceptions of absence legitimacy, components of voluntary employee turnover, the role of performance management process in employee withdrawal behavior, and current controversies concerning the withdrawal phenomenon. In addition, some creative perspectives on changing information technology, the taxonomy of lateness behavior, and the association between smoking and absenteeism are offered.
