assets or money rapidly flow out of a country, due to an event of economic consequence or as the result of economic globalization. Such events could be an increase in taxes on capital or capital holders or the government of the country defaulting on its debt that disturbs investors and causes them to lower their valuation of the assets in that country, or otherwise to lose confidence in its economic strength. This leads to a disappearance of wealth, and

## Capital flight – Wikipedia

Gusarova (2009) found that capital flight has a negative impact on economic growth for a sample of 139 developing countries. Similarly, Ndikumana (2013) for 39 African countries, Ndiaye

# Download Ebook Impact Of Capital Flight On Exchange

Capital flight can undermine the stability of the financial system and also bring about a much weaker currency which in turn then increases the prices of essential imported goods. Capital flight can mean that a developing country runs short of essential foreign currency and also does not have the net financial inflows needed to finance their investment spending.

~~What is Capital Flight? | Economics | tutor2u~~

Capital flight can create a bandwagon effect. If influential people start removing their capital, the economic crisis is often exacerbated and so it encourages others to withdraw capital. Capital flight often involves a certain sector of society. Many of the poorer members do not have the means to withdraw their capital.
