Des Indes ?y la plan??te Mars Full Movie - YouTube

Middle East Respiratory Syndrome (MERS) is viral respiratory illness that is new to humans. It was first reported in Saudi Arabia in 2012 and has since spread to several other countries, including the United States. Most people infected with MERS-CoV developed severe respiratory illness, including fever, cough, and shortness of breath.

Middle East Respiratory Syndrome (MERS) | CDC

At an average distance of 140 million miles, Mars is one of Earth's closest habitable neighbors. Mars is about half again as far from the Sun as Earth is, so it still has decent sunlight. It is a little cold, but we can warm it up.

SpaceX - Missions: Mars

The Mars Exploration Program studies Mars as a planetary system in order to understand the formation and early evolution of Mars as a planet, the history of geological processes that have shaped Mars through time, the potential for Mars to have hosted life, and the future exploration of Mars by humans.

NASA's Mars Exploration Program

MERS-CoV is a new novel coronavirus that caused severe acute respiratory infection (SARI) first identified in Saudi Arabia in September 2012. The infection appears to be the result of spread of the virus from camels to humans, resulting in limited person-to-person spread but not sustained transmission in humans.

MERS Transmission, Diagnosis, Incubation Period & Symptoms

MERS-CoV, like other coronaviruses, likely spreads from an infected person's respiratory secretions, such as through coughing. However, we don't fully understand the precise ways that it spreads. MERS-CoV has spread from ill people to others through close contact, such as caring for or living with an infected person.

MERS Transmission | CDC

Mars is the fourth planet from the Sun and the second-smallest planet in the Solar System, being larger than only Mercury.In English, Mars carries the name of the Roman god of war and is often referred to as the "Red Planet". The latter refers to the effect of the iron oxide prevalent on Mars's surface, which gives it a reddish appearance distinctive among the astronomical bodies visible to ...
