NEW YORK TIMES

BESTSELLER Yuval

Noah Harari, author of

the critically-acclaimed

New York Times

bestseller and

international

phenomenon *Sapiens*,

returns with an equally

original, compelling,

and provocative book,

turning his focus toward

humanity's future, and

Get Free Summary

our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been

Get Free Summary

transformed from
incomprehensible and
uncontrollable forces of
nature into manageable
challenges. For the first
time ever, more people
die from eating too
much than from eating
too little; more people
die from old age than
from infectious
diseases; and more
people commit suicide
than are killed by

Get Free Summary

soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies

Get Free Summary

will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this

Get Free Summary

fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

Sapiens: A Brief History
of Humankind by Yuval

Page 49/82

Noah Harari (Book Summary) Important note: This is not the original book. This is a book summary of Sapiens: A Brief History of Humankind by Yuval Noah Harari About: Our species, Homo sapiens, started as just another, biologically insignificant, animal among countless others, but at some point made

Get Free Summary

a very quick "jump" to
domination over other
species that has left man
anxious, destructive,
and often miserable
despite all our efforts to
be happy. Yuval Noah
Harari's book, 'Sapiens, '
traces the origins,
mechanisms, and effects
of what we think of as
"human progress" from
small bands of hunter-
gatherers 100,000 years

Get Free Summary

ago to the present-day global network through which our species has come to dominate the entire Earth. This bird's-eye view of human history delves into the development of sapiens' social organization and the structural features of human cultures through which our species has spread, replicated, and evolved, including the

Get Free Summary

breakthroughs of human language with its infinite expressions, the use of the human imagination, and the rise of the concept of a better future that lies just beyond the horizon. Through these mechanisms, our species has evolved socially, rather than biologically, into a species that's increasingly in control

Get Free Summary

of our own destiny. This book considers not only how this evolution has occurred but questions of whether this "progress" has truly been beneficial and how we might, with our awareness of how we got here, decide where we want to go. Here's what you'll learn about in this summary:

Although sapiens have

Get Free Summary

not evolved biologically in 100,000 years, we have experienced radical evolutions in the social order driven by our ability to collectively imagine. History, overall, is moving in the direction of global unity of humankind. None of the outcomes of history have been inevitable, and the flexible nature

Get Free Summary

of the social order may mean that our species can control its destiny.

How Humans Evolve
from Insignificant Apes
to Become the Rulers of
the World This book is a
summary of “Sapiens: A
Brief History of
Humankind,” by Yuval
Noah Harari. In Sapiens,
Professor Yuval Noah
Harari focuses on the

Get Free Summary

three great revolutions
of human history:
Cognitive, Agricultural,
and Scientific. He
presents a hypothesis
about how Homo
sapiens transforms from
an animal of no
significance 70,000
years ago to become the
rulers of the Earth.
Earlier human species
such as Homo
neanderthalensis in

Get Free Summary

Europe and Homo
erectus in Asia had
climate and
environmental
adaptations that sapiens
did not have. The
Cognitive Revolution
between 70,000 and
30,000 years ago
enabled the sapiens to
form elaborate cultures
and communicate in
fiction. Myths, religions,
moral codes, nations,

Get Free Summary

corporations, and money are fiction that shapes human societies, allowing them to speak the same language and share the same customs, beliefs, rituals, and dreams. Fiction also allowed them to cooperate in groups, giving them a military and security advantage and encouraging specialization which

Get Free Summary

eventually gave them a technological advantage. This book tells the story of how these three revolutions have affected humans since the start of the Cognitive Revolution. This guide includes: * Book Summary—helps you understand the key concepts. * Online Videos—cover the concepts in more depth.
