This is the comprehensive account of the long and difficult road traveled to end the fifty-year armed conflict with the FARC, the oldest guerrilla army in the world; a long war that left more than eight million victims. The obstacles to peace were both large and dangerous. All previous attempts to negotiate with the FARC had failed, creating an environment where differences were irreconcilable and political will was scarce. The Battle for Peace is the story not only of the six years of negotiation and the peace process that transformed a country, its secret contacts, its international implications, and difficulties and achievements but also of the two previous decades in which Colombia oscillated between warlike confrontation and negotiated solution. In The Battle for Peace Juan Manuel Santos shares the lessons he learned about war and peace and how to build a successful negotiation process in the context of a nation which had all but resigned itself to war and the complexities of twenty-first-century international law and diplomacy. While Santos is clear that there is no handbook for making peace, he offers conflict-tested guidance on the critical parameters, conditions, and principles as well as rich detail on the innovations that made it possible for his nation to find common ground and a just solution.

The shrouded woman, a corpse reviewing her life as she views the mourners at her wake, perceives in the personal ties that made up her life a failure of all parties to benefit from the possibilities of true intimacy. Helga, the heroine of House of Mist, has a powerfully imaginative inner life entirely unappreciated by her husband until he finally learns to value her as more than a trophy.

Overcoming textbook fatigue means reaching within and beyond the textbook to access all sorts of 21st century tools, the same ones that students will be using in college, careers, and daily life. -ReLeah Cossett Lent Textbook fatigue is a malaise that negatively affects teachers and students. It is the result of scripted programs and step-by-step teachers' manuals that dismiss the individualization of schools, teachers, and students. Because textbooks provide a one-way distillation of information aimed at a broad, generic population, they offer little to engage or pique the interest of the 30 individuals in a classroom. In this example-packed book, ReLeah Cossett Lent shows

how educators can reclaim the curriculum by shifting the textbook from sole source to resource. She also gives advice on using Common Core State Standards throughout the school and in the classroom. Teachers, coaches, curriculum coordinators, and administrators will discover proven techniques that will revitalize teaching and learning in every content area: *Discipline-specific writing activities that extend and deepen lessons. *Strategies for using content-specific materials that encourage students to "read to learn." *Effective vocabulary strategies that work throughout the curriculum. *Methods to tap into and build background knowledge. *Fun activities that use relevant life skills to involve and engage students in learning. Lent highlights what's to be gained from loosening the grip on textbooks and provides practical guidance on how to accomplish that goal, using real-life examples from schools that have made the change. *Overcoming Textbook Fatigue* is brimming with ideas to restore the joy of teaching and learning and, in the process, boost student achievement. Lent is a 20-year teaching veteran, an award-winning author, and an experienced international consultant specializing in literacy and communities of practice.

A passionate chronicle of the Golden Gate Bridge's construction by a National Humanities Medal-winning historian reveals influences from culture and nature that shaped its development while offering insight into its role as a national symbol of American engineering and innovation.

With the pressure of an upcoming state dinner that could make or break the president's foreign policy, White House executive chef Olivia Paras has precious little time to focus on her wedding plans—or to catch a murderer! Tensions are running high as the White House staff adjusts to a new chief usher and prepares for a high-stakes state dinner, where everything must be perfect. But as the date for the event approaches, things go disastrously wrong when the secretary of defense is found dead in his home, seemingly killed during a break-in. At the same time Olivia's fiancé, Gav, is looking into the mysterious murder of an old friend. Is there a connection? Despite an increase in security following the secretary's death, Ollie learns the president is in imminent danger at the dinner and must do everything in her power to get to him—before it's too late! Includes Recipes for a complete presidential menu!

Billie Ridell liked to dabble in the occult mainly because he was an outcast with his classmates at school. Billie stood about four feet nine inches tall with jet black hair and a lisp when he would talk. Billie always dreamed about being Class President one day and even his ultimate dream was to be the President of the United States of America but that was stretching it a bit too far. Billie never stood up for himself. He would just suppress his feelings but we all know that's not healthy to bottle up your anger. As Billie was finishing out his senior year at Ragsdale High School, Billie's classmates invited him to a Graduation party at Darren's house as a peace offering for all the bad deeds that were done to him during his school years. Billie had no idea this wasn't a peace offering, it was just another trick that would cause Billie to want to get even with his classmates. His classmates didn't know they were about to unleash an evil force that would be their last trick that they would ever play on anyone again. Billie was so excited to go to the party and have a good time and put all the pranks behind him. Boy was he in for a big surprise. Billie showed up right on time dressed in his cap and gown and ready to party before graduation that would begin in about three hours. As Billie knocked on the door he could hear the laughter and music that was coming from inside the house, but the laughter was about the prank that the classmates would be playing on Billie. The door opened and Billie stepped inside ready to party. Everyone was so nice to Billie and telling him how nice he looked and congratulating him on graduating in the top ten of his class. Darren the main prankster of the whole bunch took Billie over to get some punch and cake to eat. The punch that Billie was about to drink was laced with enough sleeping pills to knock him out for a solid hour so the classmates could carry on the prank.

The award-winning first novel pairing gay psychiatrist Jack Caleb with burned-out Chicago cop John Thinnies is a "cunning, adroit debut" (*Publishers Weekly*). When a CPA with OCD is found shot dead in his locked apartment with a .38 in his hand, only two people don't believe he killed himself. One is streetwise and world-weary Chicago homicide detective John Thinnies. The other is the victim's therapist, Dr. Jack Caleb, whose sudden appearance at the crime scene immediately arouses the cop's suspicions. The two men couldn't be more different. Caleb is wealthy, well-educated, and gay, witty enough to name his housecats Sigmund Freud and B. F. Skinner. Between job burnout and marital trouble, Thinnies lost his sense of humor a long time ago. He's not sure if the good doctor is an ally or his prime suspect. But as they begin to work together, the unlikely partners discover they do share common ground, most notably as Vietnam vets, and that they might be able to help each other as well as solve a baffling murder . . . "Winner of [St. Martin's] Best First Malice Domestic Novel Award . . . this assured and unusual debut boasts expressive language and sinewy notions of suspense." *Publishers Weekly*

The recent economic crisis was a dramatic reminder that capitalism can both produce and destroy. It's a system that by its very nature encourages predators and creators, locusts and bees. But, as Geoff Mulgan argues in this compelling, imaginative, and important book, the economic crisis also presents a historic opportunity to choose a radically different future for capitalism, one that maximizes its creative power and minimizes its destructive force. In an engaging and wide-ranging argument, Mulgan digs into the history of capitalism across the world to show its animating ideas, its utopias and dystopias, as well as its contradictions and possibilities. Drawing on a subtle framework for understanding systemic change, he shows how new political settlements reshaped capitalism in the past and are likely to do so in the future. By reconnecting value to real-life ideas of growth, he argues, efficiency and entrepreneurship can be harnessed to promote better lives and relationships rather than just a growth in the quantity of material consumption. Healthcare, education, and green industries are already becoming dominant sectors in the wealthier economies, and the fields of social innovation, enterprise, and investment are rapidly moving into the mainstream—all indicators of how capital could be made more of a servant and less a master. This is a book for anyone who wonders where capitalism might be heading next—and who wants to help make sure that its future avoids the mistakes of the past. This edition of *The Locust and the Bee* includes a new afterword in which the author lays out some of the key challenges facing capitalism in the twenty-first century.
