Why I Am Not a Painter is one of my favourite Frank O'Hara poems. He wrote it after a series of visits to his friend Michael Goldberg, the American abstract expressionist painter. Like many have done so before and since O'Hara grapples with the idea of the many forms of expression open to the human creative spirit.

Last week I began a new series titled "Why I Am Not..." and in this series I am exploring some of the things I do not believe as a means to explaining what I do believe. In the last article I explained why I am not atheist and now want to explain why I am not Roman Catholic. The timing of this article is unplanned but rather appropriate. I publish today from Orlando, Florida where I am ...

Why I am Not a Conservative. 1. At a time when most movements that are thought to be progressive advocate further encroachments on individual liberty, those who cherish freedom are likely to expend their energies in opposition. In this they find themselves much of the time on the same side as those who habitually resist change.

For the past few weeks I have been taking a day a week to tell how I have arrived at my various theological convictions. I've done this by telling you why I am not what I am not: I am not atheist, Roman Catholic, liberal, or Arminian. Today I want to tell you why I am not paedobaptist. But first, of course, definitions are in order. While all Protestants affirm the necessity of baptism ...

As you know, I am well into a series that tells what I believe by discussing the things I do not believe. To this point I have told why I am not atheist, Roman Catholic, liberal, Arminian, or paedobaptist. That means we are hastening toward the end of the series with just three articles remaining. Today I will tell why I am not dispensational, and I warn you in advance, it may prove disappointing.

Outspoken critic Jessa Crispin delivers a searing rejection of contemporary feminism . . . and a bracing manifesto for revolution. Are you a feminist? Do you believe women are human beings and that they deserve to be treated as such? That women deserve all the same rights and liberties bestowed upon men? If so, then you are a feminist . . . or so the feminists keep insisting. But somewhere along the way, the movement for female liberation sacrificed meaning for acceptance, and left us with a banal, polite, ineffectual pose that barely challenges the status quo. In this bracing, fiercely intelligent manifesto, Jessa Crispin demands more. Why I Am Not A Feminist is a radical, fearless call for revolution. It accuses the feminist movement of obliviousness, irrelevance, and cowardice—and demands nothing less than the total dismantling of a system of oppression. Praise for Jessa Crispin, and The Dead Ladies Project "I'd follow Jessa Crispin to the ends of the earth." --Kathryn Davis, author of Duplex "Read with caution . . . Crispin is funny, sexy, self-lacerating, and politically attuned, with unique slants on literary criticism, travel writing, and female journeys. No one crosses genres, borders, and proprieties with more panache." --Laura Kipnis, author of Men: Notes from an Ongoing Investigation "Very, very funny. . . . The whole book is packed with delightfully offbeat prose . . . as raw as it is sophisticated, as quirky as it is intense." --The Chicago Tribune

Paying particular attention to the issue of God's sovereignty, Jerry L. Walls and Joseph R. Dongell critique biblical and theological weaknesses of Calvinist thought.

When enough of the world comes at you, telling you you're nothing, you believe. You become what you believe. You become until the pain of becoming is too great to bear. You constantly ask yourself: What if I don't know the answer? What if I'm wrong? What if they know I'm wrong? What if they laugh? What if fearing failure makes you fail? You're faced with a choice. To stay. Or to change. Or to end. If you're lucky, enough love begins seeping through, lighting a path to change. This is the story of I Am NOT, a memoir of triumph over verbal and emotional abuse, bullying, disordered eating, and societal norms. A journey of self-deprecation and the promise of continued growth. An anecdotal warning of the challenges kids, teens, and adults still face today.

Those who practice the Muslim faith have resisted examinations of their religion. They are extremely guarded about their religion, and what they consider blasphemous acts by skeptical Muslims and non-Muslims alike has only served to pique the world's curiosity. This critical examination reveals an unflattering picture of the faith and its practitioners. Nevertheless, it is the truth, something that has either been deliberately concealed by modern scholars or buried in obscure journals accessible only to a select few.

"Highly readable and informative, this critical series of vignettes illustrates a long history of the corruption of science by folk beliefs, careerism, and sociopolitical agendas. Marks repeatedly brings home the message that we should challenge scientists, especially molecular geneticists, before we accept their results and give millions of dollars in public and private funds toward their enterprises."—Russell Tuttle, The University of Chicago "Jonathan Marks has produced a personal and compelling story of how science works. His involvement in scientific endeavor in human biology and evolution over the past three decades and his keen sense of the workings of science make this book a must read for both scientists and lay readers. In this sense, the lay reader will learn how scientists should and shouldn't think and some scientists who read this book will come away thinking they are truly not scientists nor would they want to be."—Rob DeSalle, American Museum of Natural History "Jonathan Marks's Why I Am Not a Scientist provides food for thought, and as expected, it's digestible. In unusually broad perspective, this anthropology of knowledge considers science and race and racism, gender, fraud, misconduct and creationism in a way that makes one proud to be called a scientist."—George J. Armelagos, Emory University

"A provocative essay challenging the idea of Buddhist exceptionalism, from one of the world's most widely respected philosophers and writers on Buddhism and science. Buddhism has become a uniquely favored religion in our modern age. A burgeoning number of books extol the scientifically proven benefits of meditation and mindfulness for everything ranging from business to romance. There are conferences, courses, and celebrities promoting the notion that Buddhism is spirituality for the rational; compatible with cutting-edge science; indeed, "a science of the mind." In this provocative book, Evan Thompson argues that this representation of Buddhism is false. In lucid and entertaining prose, Thompson dives deep into both Western and Buddhist philosophy to explain how the goals of science and religion are fundamentally different. Efforts to seek their unification are wrongheaded and promote mistaken ideas of both. He suggests cosmopolitanism instead, a worldview with deep roots in both Eastern and Western traditions. Smart, sympathetic, and intellectually ambitious, this book is a must-read for anyone interested in Buddhism's place in our world today."--Provided by publisher.
