Zoroastrianism is one of the world's oldest known living religions and has its origins in the distant past. It developed about three and a half thousand years ago from the ancient Indo-Iranian religion that was once shared by the ancestors of nomadic herding tribes that later settled in Iran and northern India.

*An introduction to Zoroastrianism - The British Library*

Introduction. Zoroastrianism, the religion of the ancient Iranians, is named after Zarathushtra (Zoroaster) whose hymns ( Gathas) are thought to have been composed 1500–1000 BCE. Originating in Central Asia, Zoroastrianism spread south to Iran where it became the main religion from the 6th century BCE until the mid-7th century CE, interacting meanwhile with Judaism and Christianity.

Even if somewhat outdated this is a classical introduction to ancient Iranian religion. Jackson, A. V. W., 1898, Zoroaster the Prophet of Ancient Iran, London. Outdated from the point of view of history of religions, but contains the late traditions about Zarathustra.

*Introduction to Zoroastrianism - Harvard University*

Professor Jenny Rose provides a clear and comprehensive introduction to Zoroastrianism that helps the reader realize the significant of Zoroastrian principles and its history.

Zoroastrianism is one of the world's great ancient religions. In present-day Iran, significant communities of Zoroastrians (who take their name from the founder of the faith, the remarkable religious reformer Zoroaster) still practise the rituals and teach the moral precepts that once undergirded the officially state-sanctioned faith of the mighty Sasanian empire. Beyond Iran, the Zoroastrian diaspora is significant especially in India, where the Gujarati-speaking community of emigrants from post-Sasanian Iran call themselves 'Parsis'. But there are also significant Zoroastrian communities to be found elsewhere, such as in the USA, Britain and Canada, where western cultural contexts have shaped the religion in intriguing ways and directions. This new, thorough and wide-ranging introduction will appeal to anyone interested in discovering more about the faith that bequeathed the contrasting words 'Magi' and 'magic', and whose adherents still live according to the code of 'Good Thoughts, Good Words, Good Deeds.' The central Zoroastrian concept that human beings are continually faced with a choice between the path of 'good' and 'evil', represented by the contrasting figures of Ahura Mazda and Ahriman, inspired

## Read Free Zoroastrianism An Introduction

thinkers as diverse as Voltaire, Mozart and Nietzsche. Jenny Rose shows why Zoroastrianism remains one of the world's most inspiring and perennially fascinating systems of ethics and belief. 'Jenny Rose's lively and engaging account comprises a very readable, well informed survey of Zoroastrianism and its history. The book is a pleasure to read throughout, and the author's writing style is markedly beautiful, placing her very much within Mary Boyce's literary tradition. Rose has read widely round the subject, engaging with important primary and secondary sources and rendering her thorough treatment of Zoroastrianism fully up-to-date. I particularly welcomed her valuable discussion of Zoroastrianism in Central Asia. All in all, the book is a fine example of considered synthesis and compression. This is a book one wants to read from beginning to end without putting it down. It will find a warm welcome from students of the subject and their teachers.' - Almut Hintze, Zartoshty Professor of Zoroastrianism, SOAS, University of London

This obscure and ancient religion is receiving more and more attention in modern times due to its claimed influence by scholars upon Christianity. This particular author, however, focuses upon the relationship between Zoroastrianism and Judaism, as he sets out to prove that Christianity did in fact receive influence from Zoroastrianism, but that it was transmitted through Judaism. This route of transmission allows the author to clearly show how Judaism itself was directly affected by Zoroastrianism during the Exilic Period, a time when these two faiths were existing in close proximity to one another. Chapters include Zoroaster Himself, The Mission and Ministry of the Prophet, The Scriptures of Zoroastrianism, Doctrine of God, Doctrine of Man, and Developments and Contacts.

Zoroastrianism is one of the world's oldest religions, though it is not among the best understood. Originating with Iranian tribes living in Central Asia in the second millennium BCE, Zoroastrianism was the official religion of the Iranian empires until Islam superseded it in the seventh century AD. Centered on the worship of Ahura Mazda, the All-knowing Ruler, Zoroastrianism follows the practices and rituals set out by the prophet Zarathustra, according to the indigenous tradition. As one of the world's great religions, Zoroastrianism has a heritage rich in texts and cultic practices. The texts are often markedly difficult to translate, but in this volume, Prods Oktor Skjærvø, professor of ancient Iranian languages and culture at Harvard, provides modern and accurate translations of Zoroastrian texts that have been selected to provide an overview of Zoroastrian beliefs and practices. In a comprehensive introduction to these sacred texts, Skjærvø outlines the history and essence of Zoroastrianism and discusses the major themes of this the first fully representative selection of Zoroastrian texts to be made available in English for over a century.

"This book is concerned with the doctrinal beliefs of the practising Zoroastrians examined within the frames of the Gothic principals. Variances in the current practice are considered. The doctrinal changes are explained in the light of socio-political forces operating in each distinct historical era. In this exercise no scholarly speculation is taken on face value."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

## Read Free Zoroastrianism An Introduction

This introduction to Zoroastrianism assumes no prior knowledge of the faith. The book presents Zoroastrianism as a deep and multi-faceted religious tradition that has been subject to a process of evolution and which, therefore, despite its apparent conservatism, is a dynamic and relevant to the twentieth century as it was when it was established some 1400 years before Christianity. Zoroastrianism is shown here to be a living faith with a coherent theology and a persuasive ethic of good thought, good words and good deeds.

"Boyce is a, perhaps the, world authority on Zoroastrianism. . . . Prefaced by a 27-page introduction, this anthology contains selections which offer a complete picture of Zoroastrian belief, worship and practice. There are historical texts from the sixth century B.C. onwards, and extracts from modern Zoroastrian writings representing traditionalism, occultism and reformist opinion. Anyone wishing to know more about this 'least well known of the world religions' should sample these selections."—The Methodist Church "Wide-ranging. . . . An indispensable one-volume collection of primary materials."—William R. Darrow, Religious Studies Review

The significance of the Zoroastrian religion in the development of the history of thought is often only mentioned in passing, or is completely overlooked. Zoroastrianism has developed over a span of at least three thousand years, with roots in a common Indo-Iranian culture and mythology, then becoming part of imperial Iranian ideology within an Ancient Near Eastern setting, and emerging in variant forms in western and central Asia in late antiquity. The religion continues as a living faith for an estimated 130 - 150,000 adherents in the world. Most Zoroastrians if asked, 'In a nutshell, what do Zoroastrians believe?' would begin their answer with the moral maxim: 'Good Thoughts, Good Words, Good Deeds.' Zoroastrianism: A Guide for the Perplexed takes this foundational trifold ethic as the framework for its three main chapters. The book presents a comprehensive study of the religion through its focus on the questions that perplexed seekers might ask of a Zoroastrian concerning ideology and ethics; current discussions of 'text' and 'author'; and the putting-into-practice of the religion.

Zarathustra and Zoroastrianism offers a compact, concise and accessible survey of Zoroastrianism. Chapters address Zarathustra and the origins of the religion, religious concepts and narratives, ethics and gender, priesthoods and rituals, transitions and festivals.
